SEMINAR OFFERINGS

Wills vs. Trusts

This seminar will explore an overview of wills and trusts, the most important provisions of each, the advantages and disadvantages to consider about each, probate issues and avoiding probate, and protecting your assets and your family.

You've Been Appointed Executor or Trustee, Now What?

No matter how well-prepared for death one is, there will always be tasks left for survivors to do. Most of them can be undertaken in an orderly fashion over time; some typically need immediate attention. Come learn about what needs to be done, when, and by whom. Pick up some tips that can help with liquidity, paying bills, and family dynamics issues.

Estate Planning is for Everyone

Trusts, Wills, Powers of Attorney, Health Care Directives — what are these documents and how does one put an estate plan into effect? Whether you have already done some estate planning or are looking to get started, this seminar will assist you with understanding the basics.

Estate Planning for Complicated Lives

Are you considering putting an estate plan in place but are concerned about how to deal with a difficult issue? If you have a complication in your life — and most of us do — this seminar is for you. In this seminar, you'll learn about several common complications such as divorce, remarriage and his/her kids, addictive behaviors, special needs, asset and tax issues, Medical Assistance estate recovery, and options to address these concerns.

RSVP for one or more of the FREE Estate Planning Seminars
